Actuary

'Actuaries are highly sought-after professionals who develop and communicate solutions for complex financial issues. Actuaries measure and manage risk and primarily work in the life, casualty, health, pension, and financial risk management spaces.

Al Haj Safder Jaffer

President The World Federation of KSIMC

Is a partner in one of the largest global actuarial firms and has been in this profession for more than 20 years.

Advises leading public and private companies on high-stakes financial services and risk management.

Trusted to advise financial and health regulators, giving him vital knowledge of risk management, governance and actuarial consultancy services.
